Rehab at Shady Lane

The road to recovery begins in many places. It may start on the day your health turned around. Or, it may begin the day you decide to have replacement surgery. Whichever road you travel, Rehab at Shady Lane will assist you in plotting your journey by creating a comprehensive environment of healing.

Rehab at Shady Lane's road to recovery begins with our planning team. We work with you and your doctor to develop a personalized map to make your journey smooth through smarter recovery choices. Our Smart Healing Program brings all of the elements of healing together. We optimize the time you spend on the road and maximize your efforts to reach your destination.

What makes *Smart Healing* different?

A Healing Plan

In planning your recovery, you'll want to take into consideration how smoothly your rehab team works with your surgeon and medical facilities. It should be a seamless progression with everyone knowing the plan and working together in your best interest. Rehab at Shady Lane has been created to do just that. This will keep the lines of communication and common goals clearly stated and implemented for you to optimize its benefits.

A Healing Team

Rehab at Shady Lane recognizes that different people have different needs, that they recuperate at different rates, and that everyone approaches recovery in a very personal manner. Understanding this, our Healing Team collaborates with you and your physician to provide a custom recovery plan. Rehab at Shady Lane's orthopaedic physician consultant is available to the team so you can rest assured that there is a physician available to them should your physician not be available. As an independent facility, it doesn't matter which hospital you are discharged from or your physician's

hospital affiliation. All our clients receive optimum therapy in an environment that works collaboratively with hospital systems.

A Healing Environment

Rehab at Shady Lane is a separate unit of our facility. Everyone who is in Rehab at Shady Lane is in the rehab program because we believe that when people all have the same goal, to recover their health and leave, it provides a healing and supportive environment. Our facility feels as much like a luxury hotel; it is a health care facility with beautifully furnished and decorated private rooms, beautiful views, private telephone, wireless cable, cable television and lovely gardens.

A Healing Diet

We often hear about eating right or eating healthy but there is also a diet that promotes healing. This is one of our specialties. Our dietitian and dietary staff have built a cuisine of healing with foods that encourage your body on its way back to health. Great care is given to providing delicious meals rich in the calories, protein, vitamins A and C and even minerals that are the "power foods" needed to get you on your way. In fact, we are often chosen by physicians for our wound care focus.

Healing Services

Rehab at Shady Lane is also available on an out-patient basis. In addition, a local doctor and nurse practitioner practice right here on the Shady Lane campus.

Short-Term Availability

Arrangements can be made for short-term stays. In cases where someone is being discharged from a hospital and they are not comfortable being on their own, Laurel Grove Assisted Living can fill that gap.

Beyond Healing Rehab

Our comprehensive discharge planning makes sure that when you return home or to an alternative living facility, you do so comfortably. Our staff will assist with referrals to available services and outside care.

Healing Aids & Financial Coverage

If Medicare Part A is your primary source of payment, our staff can explain the criteria needed to help cover your costs. Medicare Replacement Plans and some other insurance plans may help you cover your costs. However, each medical insurance plan has its own criteria. Be sure to contact your insurance company to find out what coverage you have.
